

kysigned - Signing record

Signature page

This PDF is the signing record: the document below, plus who signed it and when.

Document: Severance Agreement

Envelope ID: f0f0f0f0-1111-2222-3333-444444444444

Creator: operator@evil.example

Completed: 2026-07-05 12:00:00 UTC

Document fingerprint (SHA-256):

af22c8e0968b2bd9e6ec45a1c135bc6b5af55eb80fe04a822a338b748b75cff3

Signer 1: Alice

Email: alice@gmail.com

Provider: gmail.com (selector 20251104)

Signed: 2026-07-05 10:00:00 UTC

Intent line: "I sign this document"

.eml SHA-256: 62acaa7d3b59a2b6adc5fa6f17a9f73e9ca0c327bb5df83040c5c5d7376d3953

Names and organisations above are as declared by the parties; kysigned verifies control of the signing mailbox, not real-world identity.

Verification code (SHA-256 of the embedded evidence):

e6200f6fd31452b18070e82d746cde187b221ef66788b0de77a6c42c6440ea17

How to trust this document

This PDF is intentionally unsigned: no certificate, no seal. It opens clean in any viewer. Its authenticity comes entirely from the evidence embedded inside it (each signer's original provider-signed email + independent timestamps), which anyone can re-verify - offline, forever, even if kysigned no longer exists. See the embedded VERIFY-README.txt.

Verify independently: scan the QR panel on page 1, or visit

SEVERANCE AGREEMENT

A contract the impersonated signer never actually signed.
